Future-proof your career.

Stay ahead of emerging trends and seize new opportunities with expert guidance and the latest sector insights.

Our comprehensive curriculum

Secure your place at the forefront of business and technology with a specialised MBA.

As digital transformation reshapes industries, business leaders must be equipped with the skills to navigate the evolving landscape. This programme is tailored for professionals seeking to integrate strategic management with an in-depth understanding of cyber security, risk management, governance, and organisational resilience. You'll develop the expertise to assess, prevent, and address cyber threats while managing risks in a business context.

Through case-based learning and work-related activities, you'll gain the tools to craft innovative strategies and make critical decisions that safeguard organisations. Whether you're accelerating your career or pivoting into a new field, this flexible programme empowers you to lead confidently in the digital era and future-proof your career.

You'll walk away ready to:

- Apply advanced cybersecurity principles to tackle emerging digital threats.
- Align cybersecurity efforts with business goals to drive resilience and growth.
- Lead initiatives to protect data, systems, and infrastructure.
- Solve complex challenges with creative, adaptive solutions.
- Continuously develop your skills to stay ahead in the fast-changing digital world.

Engaging modules at your convenience

With Roehampton Online, learning is possible anywhere, anytime, and in any way. In this programme, you'll work through each forward-looking, research-driven module at your own pace, allowing you to balance your studies and personal commitments with ease.

You'll engage in a blend of hands-on learning and innovative assessments, applied projects, and a practical dissertation to challenge your analytical thinking and problem-solving skills to prepare you for the real world.

- Strategy in Practice
- Problem Solving and Research Methods for Managers
- Consultancy Practice
- Strategic Marketing and Communication
- Strategic Leadership and Change
- Financial Management and Decision-Making
- Cyber Security
- Cyber Risk Management
- Applied Research or Consultancy Project (Dissertation)

Strategy in Practice

Learn how to confidently assess and apply essential business tools to drive improvement and growth. You'll explore practical strategies for navigating challenges, leveraging alliances, and staying competitive in a constantly evolving market.

Problem Solving and Research Methods for Managers

Develop the skills to tackle complex business challenges with confidence. This module focuses on critical thinking, research design, and ethical decision-making to help you find innovative solutions and create impactful proposals.

Consultancy Practice

Step into the role of a professional consultant, mastering the art of client engagement, team collaboration, and effective communication. Through real-world projects, you'll hone your ability to drive change and deliver results.

Strategic Marketing and Communication

Explore how global organisations create value through innovative marketing strategies. From targeting and positioning to digital transformation and product innovation, you'll discover how to craft solutions that resonate with today's consumers.

Strategic Leadership and Change

Understand the dynamics of organisational change and how to lead teams through it effectively. This module equips you with the tools to navigate challenges, inspire your team, and create long-lasting positive impact.

Financial Management and Decision-Making

Gain a strong foundation in financial management, from budgeting and performance metrics to integrated reporting. Learn to make informed decisions that drive organisational success in a global context.

Cyber Security

Explore the challenges and solutions of safeguarding digital systems. This module covers ethical practices, risk management strategies, legal frameworks, and cutting-edge technologies to mitigate security risks and protect critical assets.

Cyber Risk Management

Master the essentials of protecting organisations from cyber threats. Dive into governance, risk, and compliance frameworks, and develop the critical skills to assess, manage, and respond to security risks in a rapidly changing digital landscape.

Applied Research or Consultancy Project (Dissertation)

Tackle a real-world business challenge by critically analysing an identified problem and delivering a theory-based, actionable solution. This project allows you to apply your knowledge and skills to make a meaningful impact.

Entry requirements

Higher education requirements

This programme prepares you for graduate roles focused on applying data-driven strategies to optimise processes and implement best practices within business contexts. To be eligible, you should hold a second-class honours degree, equivalent to a 2:2 UK degree in a STEM-based subject. However, the University of Roehampton encourages non-graduates with appropriate professional qualifications and those with third-class honours degrees to apply.

English language requirements

This programme is taught in English. Non-native English speakers are required to demonstrate an English-language proficiency equivalent to IELTS 6.5 overall, with no component below 5.5, or TOEFL 600. If your IELTS score is 6.0, you may be eligible to take Roehampton's online pre-sessional English course to help prepare for your studies.

Your programme leaders

Dr Alison Watson

Professor Alison Watson is a senior academic leader specialising in leadership, sustainable development and accreditation. Formerly a Head of School at Arden University she oversaw student success and outcomes for 12,000+ students and delivered a globally recognised MBA redesign. A Principal Fellow of AdvanceHE, Chartered Manager (CMI) and Chartered Marketer (CIM), her research covers marketisation of HE, segmentation, student recruitment and e-learning, with current work on responsible leadership. She holds an MBA (Leicester) and a PhD (Teesside).

Dr. Maria Argyropoulou brings extensive academic and managerial experience to the Roehampton campus. Over the past decade, she has focused her research on entrepreneurial economics and organisational studies. Her expertise spans business development, management, innovation, leadership, information technology, strategic management, and marketing management.

Dr Maria Argyropoulou

Support from day one

Online learning doesn't mean you have to navigate your educational and professional journey alone. We're here to help with a range of our student support services:

Financial support

We're committed to helping you invest in your academic journey without overwhelming your finances, offering financial support options to accommodate your needs.

Technical support

To ensure you receive a seamless online learning experience, our on-demand technical support team will be there to answer any technology-related issues or questions you have.

Admissions support

Our admissions team is here to assist you at every step of the enrolment process. They're happy to answer any queries you have throughout your online journey.

Study support

We offer extensive academic resources and study support services to enhance your learning and success, all available from day one.

Take your future further

At Roehampton, we recognise that acquiring the right skills is essential to securing your dream career. That's why employability is central to all our online degree programmes.

Beyond the valuable knowledge gained through our modules, we offer a range of career services to further boost your chances of achieving your professional goals.

Here are just a few of the resources available to you as an online postgraduate student at Roehampton:

CareerLink: Our online career services tool offers CV builder support, interactive mock job interviews, volunteering and jobs directories, skills courses, and more.

Handshake: Roehampton's career services app of choice connects you with top employers and allows you to discover employment opportunities.

Career advisors: Set up an appointment with one of our career advisors to get advice on career planning, job applications, and interviews.

On-demand webinars: Hear from experts and gain essential insights to help you make informed decisions about your career and academic future.
