You'll engage in a blend of hands-on learning and innovative assessments, applied projects, and a practical dissertation to challenge your analytical thinking and problem-solving skills to prepare you for the real world.

- Global Strategic Management
- Supply Chain Strategy and Processes
- Global Service Operations, Logistics, and Supply Chain Management
- Digital Logistics and Supply Chain Management
- Supply Chain Sustainability and Resiliency
- Financial Performance Management
- Dissertation or Consultancy Project

Engaging modules at your convenience

Global Strategic Management

Navigate the complexities of international business with a focus on corporate strategy and social responsibility. Understand how sustainability practices shape international business policies, stakeholder relationships, and strategic decisions.

Supply Chain Strategy and Processes

Develop a strategic understanding of supply chain management by analysing various supply chain strategies and processes. Build expertise in managing global logistics and supply chains through a comprehensive study of international business practices.

Global Service Operations, Logistics, and Supply Chain Management

Delve into the principles and practices of service operations, logistics, and supply chain management. Understand service evaluation, enhancement, and improvement within both private and public sectors, and apply this knowledge to various industries, including retail, financial services, and consultancy.

Digital Logistics and Supply Chain Management

Explore the impact of emerging digital technologies, such as big data analytics, artificial intelligence, IoT, and blockchain, on global logistics and supply chain management. Gain insights into supply chain analytics, e-procurement, and the integration of lean and agile practices in the context of Industry 4.0.

Supply Chain Sustainability and Resiliency

Examine the role of stakeholders in green and sustainable supply chain management. Understand risk management and resilience concepts in the context of business continuity, environmental impact, and social responsibility. Learn how to optimise operational efficiency and contribute to the Circular Economy.

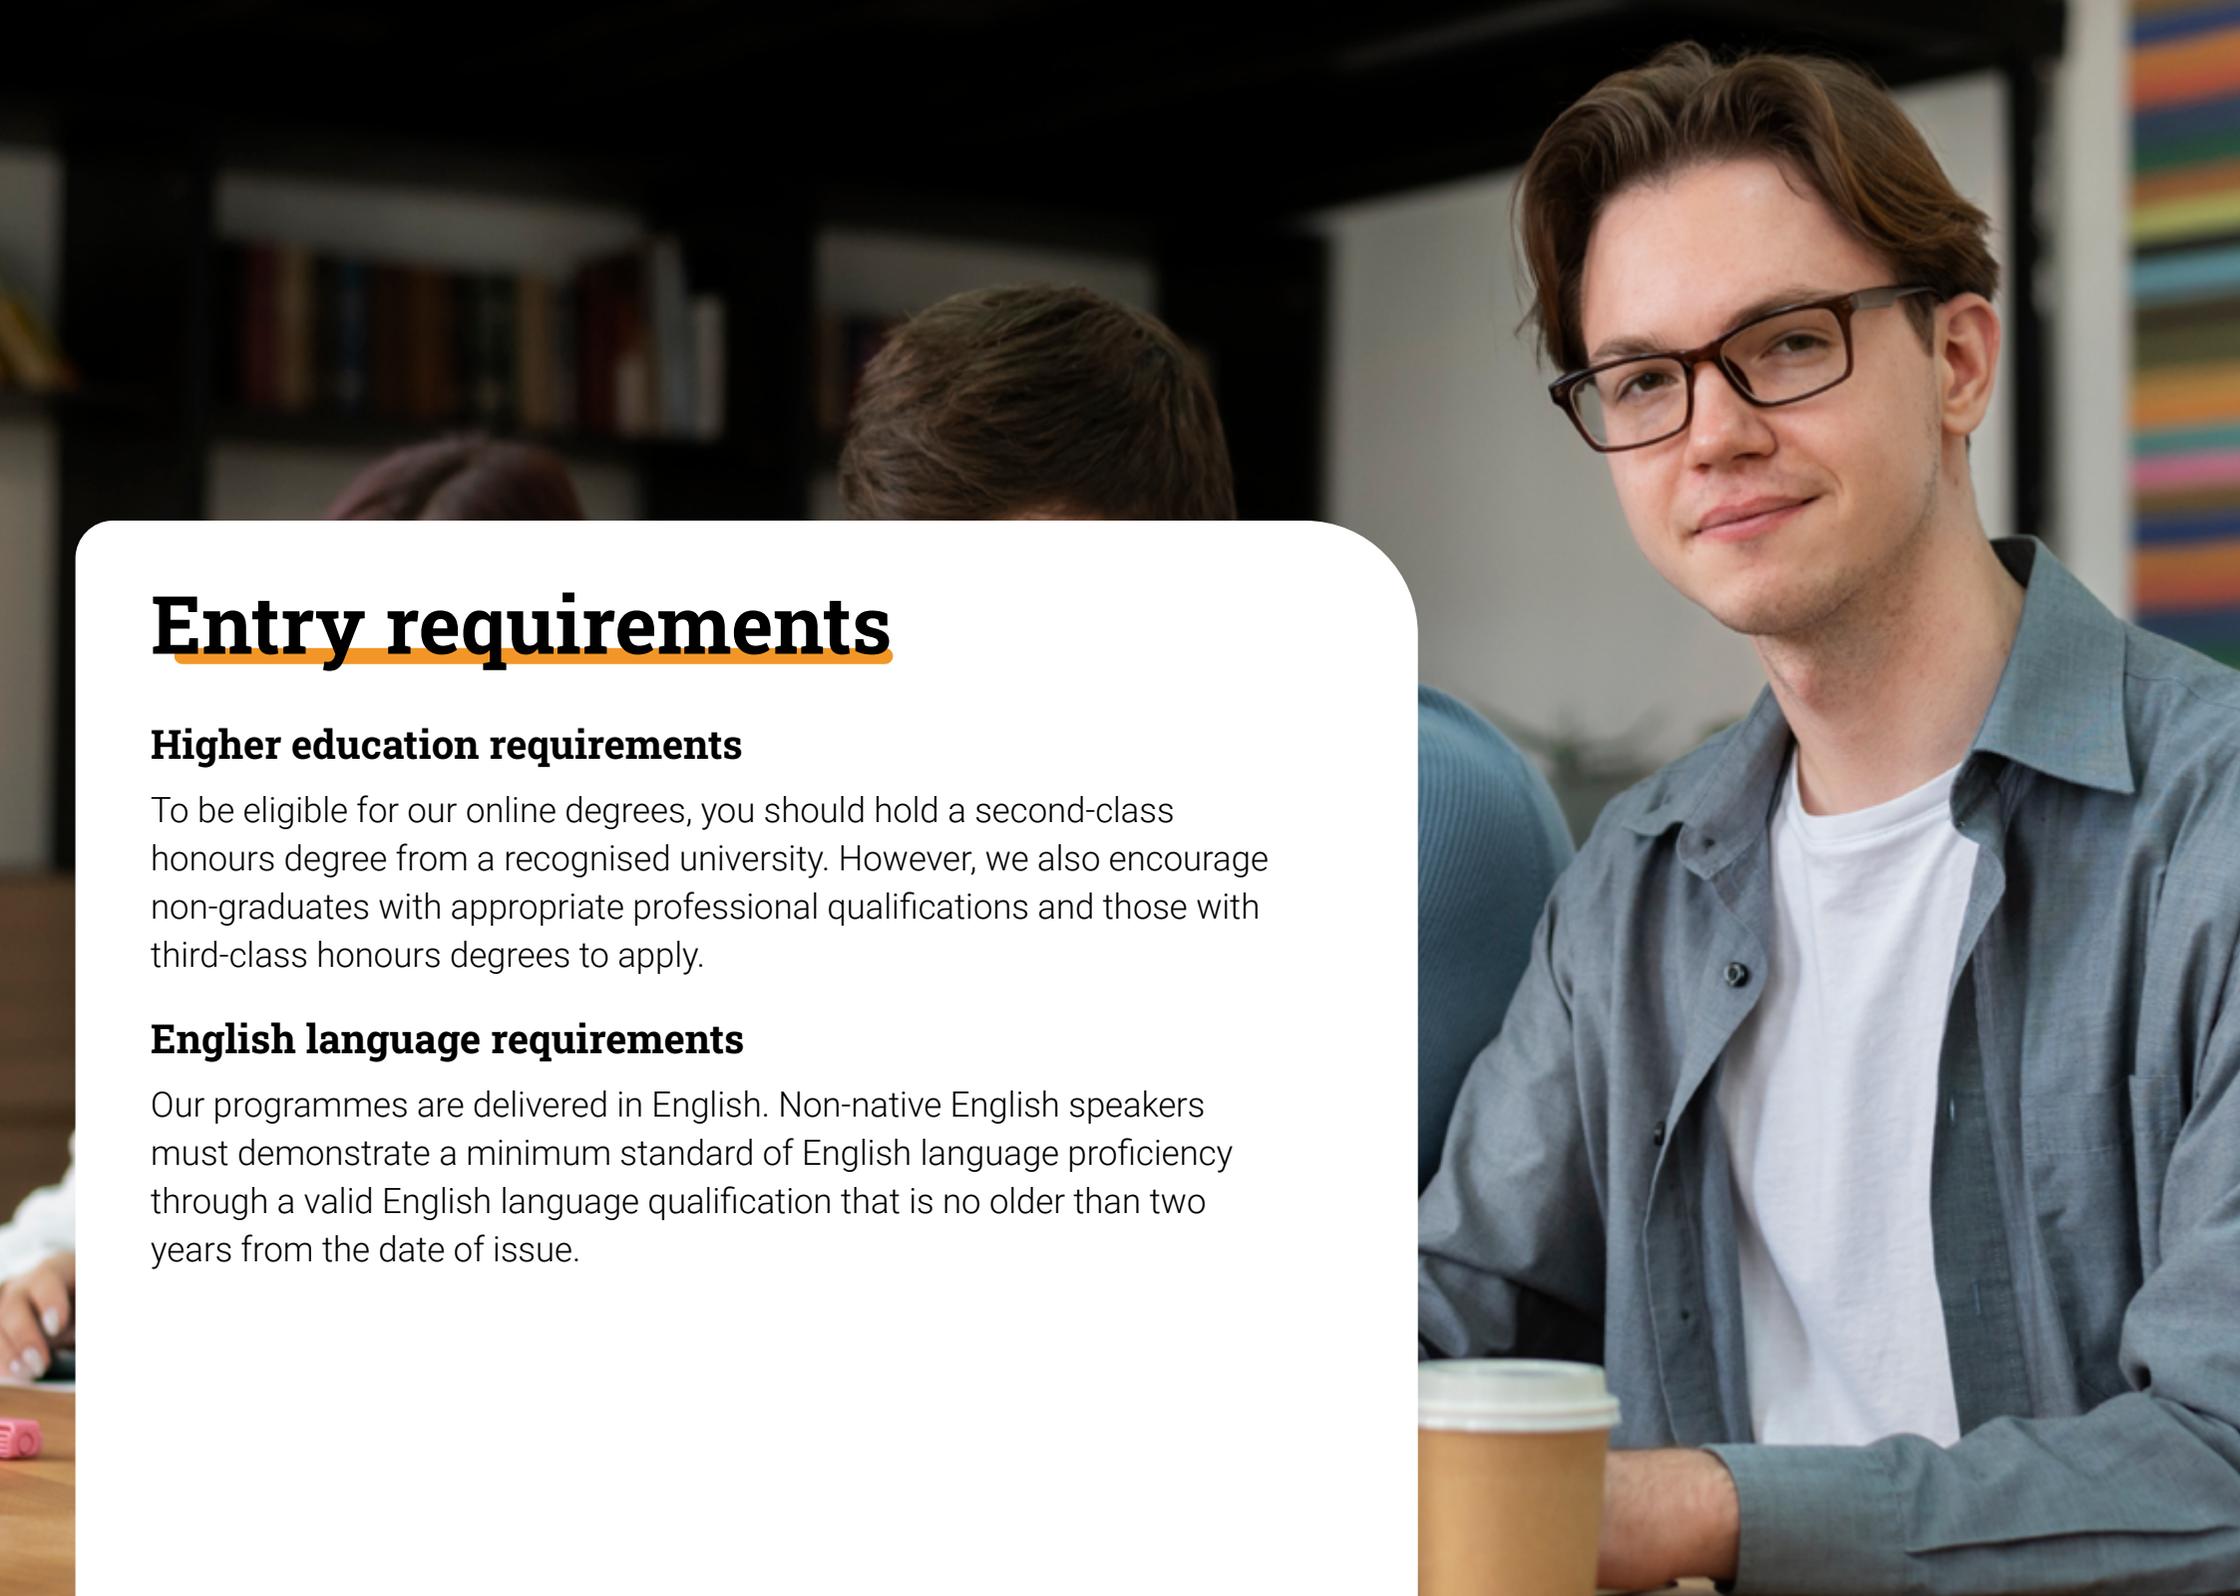

Financial Performance Management

Gain a thorough understanding of financial management within both domestic and international contexts. Learn to use accounting, budgeting, and other financial systems to enhance organisational performance and make informed decisions.

Dissertation or Consultancy Project

Apply your knowledge to a deep study of a specific issue in the field, consolidating your learning from the programme.

Entry requirements

Higher education requirements

To be eligible for our online degrees, you should hold a second-class honours degree from a recognised university. However, we also encourage non-graduates with appropriate professional qualifications and those with third-class honours degrees to apply.

English language requirements

Our programmes are delivered in English. Non-native English speakers must demonstrate a minimum standard of English language proficiency through a valid English language qualification that is no older than two years from the date of issue.

Your programme leaders

Dr Alison Watson

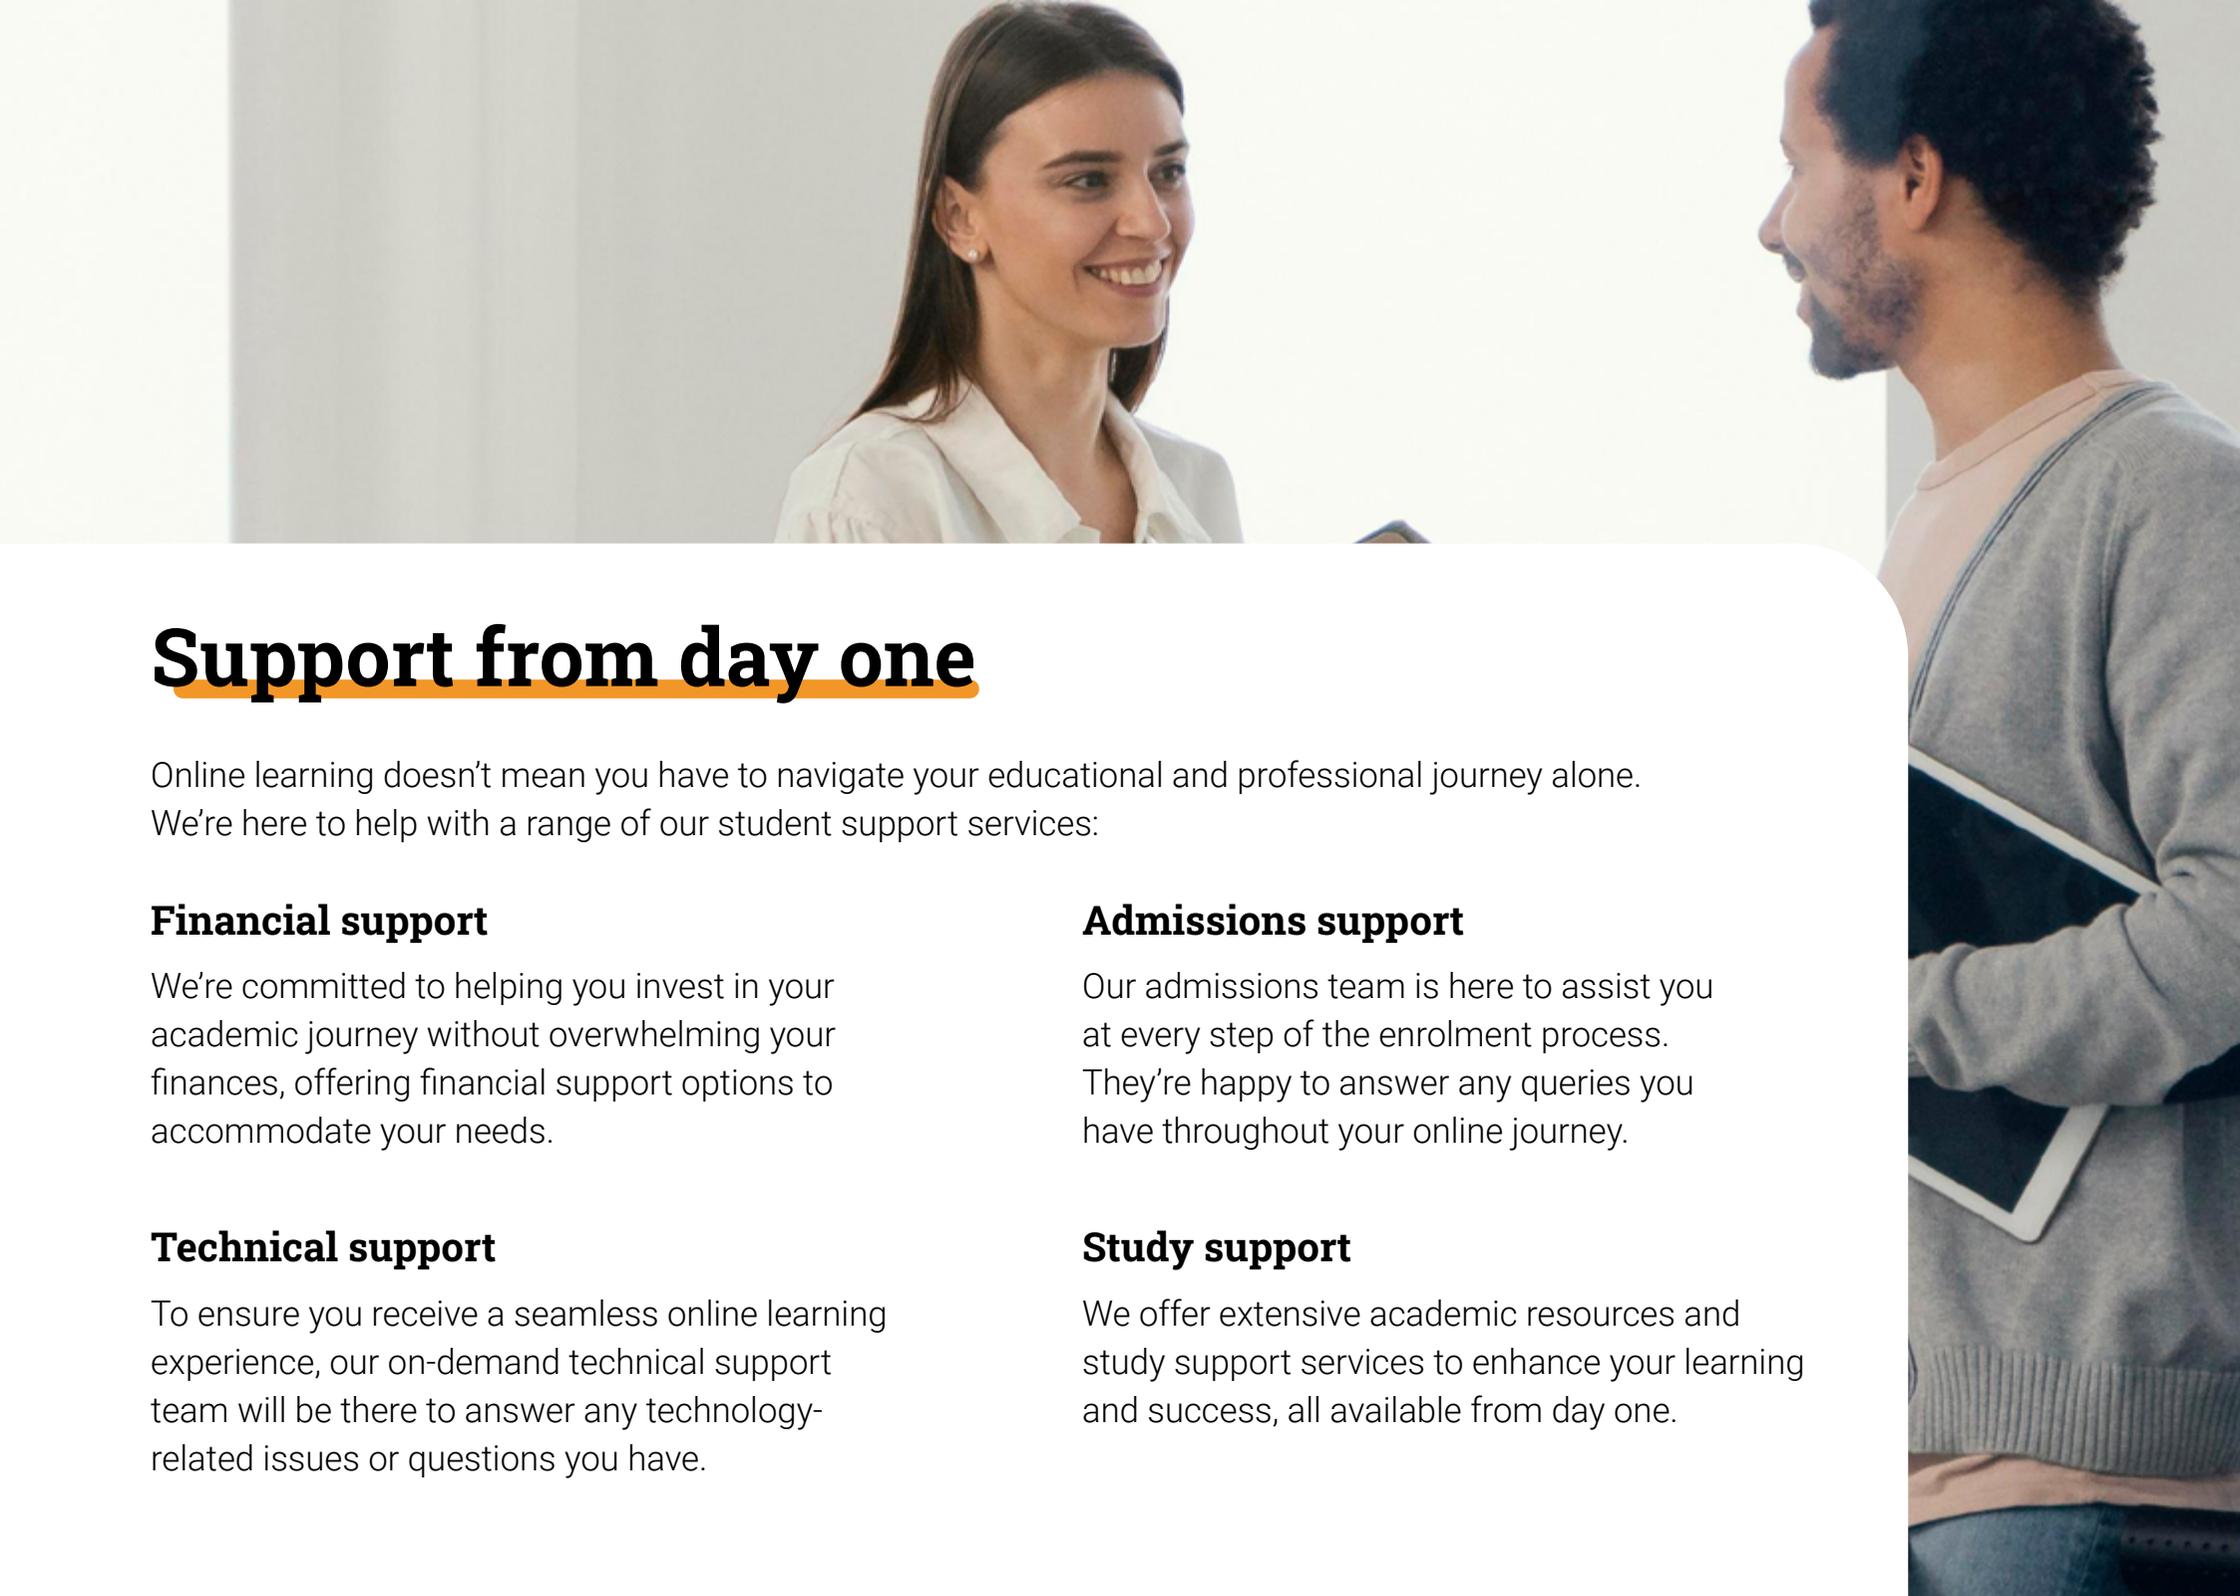

Professor Alison Watson is a senior academic leader specialising in leadership, sustainable development and accreditation. Formerly a Head of School at Arden University she oversaw student success and outcomes for 12,000+ students and delivered a globally recognised MBA redesign. A Principal Fellow of AdvanceHE, Chartered Manager (CMI) and Chartered Marketer (CIM), her research covers marketisation of HE, segmentation, student recruitment and e-learning, with current work on responsible leadership. She holds an MBA (Leicester) and a PhD (Teesside).

Dr. Maria Argyropoulou brings extensive academic and managerial experience to the Roehampton campus. Over the past decade, she has focused her research on entrepreneurial economics and organisational studies. Her expertise spans business development, management, innovation, leadership, information technology, strategic management, and marketing management.

Dr Maria Argyropoulou

Support from day one

Online learning doesn't mean you have to navigate your educational and professional journey alone. We're here to help with a range of our student support services:

Financial support

We're committed to helping you invest in your academic journey without overwhelming your finances, offering financial support options to accommodate your needs.

Technical support

To ensure you receive a seamless online learning experience, our on-demand technical support team will be there to answer any technology-related issues or questions you have.

Admissions support

Our admissions team is here to assist you at every step of the enrolment process. They're happy to answer any queries you have throughout your online journey.

Study support

We offer extensive academic resources and study support services to enhance your learning and success, all available from day one.

Take your future further

At Roehampton, we recognise that acquiring the right skills is essential to securing your dream career. That's why employability is central to all our online degree programmes.

Beyond the valuable knowledge gained through our modules, we offer a range of career services to further boost your chances of achieving your professional goals.

Here are just a few of the resources available to you as an online postgraduate student at Roehampton:

CareerLink: Our online career services tool offers CV builder support, interactive mock job interviews, volunteering and jobs directories, skills courses, and more.

Handshake: Roehampton's career services app of choice connects you with top employers and allows you to discover employment opportunities.

Career advisors: Set up an appointment with one of our career advisors to get advice on career planning, job applications, and interviews.

On-demand webinars: Hear from experts and gain essential insights to help you make informed decisions about your career and academic future.
